EDUCATION

- **National Institute of Technology, Warangal** 2026
Master Of Computer Science And Engineering
- **Devi Ahilya Vishwavidyalaya Indore, Madhya Pradesh** 2023
Bachelor Of Education
- **Rani Durgavati Vishwavidyalaya Jabalpur, Madhya Pradesh** 2021
Bachelor Of Science

PROJECTS

- **Online Equipment Booking System**
(Facilitating efficient management of equipment reservations across multiple departments.)
 - Tools & technologies used: PHP, MySQL, HTML, CSS, JavaScript, Bootstrap, jQuery, AJAX, SMTP Mailing Service (PHPMailer)
 - Developed a user-friendly web interface for equipment reservations, incorporating user authentication, session management, and a faculty approval workflow for booking requests. Integrated SMTP mailing service for real-time email notifications on booking status updates.
 - 🌐 Project Repository Link
- **Real Estate Price Predictor:**
(Dynamic classification system for imbalanced, evolving data using reinforcement learning to select the best model in real-time.)
 - Tools & technologies used: Python, scikit-learn, NumPy, pandas, Matplotlib, Jupyter Notebook
 - Developed a predictive model to estimate home prices using machine learning algorithms (Linear Regression, Decision Trees, and Random Forest) on the Boston Housing dataset. Analyzed key features like crime rate, number of rooms, and property tax to deliver accurate home price predictions, demonstrating strong data analysis and model-building skills.
